

Peckham raises the roof!

"Move over Hackney! London's next creative hotspot, signalled by this bold rooftop sculpture park, could be south of the river," *Observer 5 July 2009*

"Bold Tendencies III from the [Hannah Barry Gallery](#) at Peckham's multi-storey car park, Rye Lane, until September 30... the private view, was hugely sunny and insanely popular - a great excuse to relax in the summer weather, listen to jazz and look at the great view ... oh, and look at the art."

Rebecca's Journal 6 July 2009

"Great evening out at 'Bold Tendencies III' exhibiting fantastic monumental sculpture/projections. The view is the best I've ever seen of London ... the whole panorama from

Wembley, St Pauls, Gherkin." *PaintitBeigewordpress.com*

"Last night's opening had a fabulous atmosphere... 700 people wandering the rooftop to a thrumming jazz trio, & investigating the artworks...a thrilling, and surprisingly green, panorama that sweeps across from the Houses of Parliament to the O2 dome... and the unexpected sight of St Paul's dome surfing majestically on top of Peckham Library (left)." *realcyclingblogspot.com 1 July 2009*

"Just opened on the roof of Peckham Rye multi-storey car park 11am-10pm Thurs to Sun, is Frank's Café and Campari bar... Those wishing to hang with the local arty souls have until end September as they sip a sunset Negroni while sampling a plate of

heritage tomatoes, sweetcorn and smoked paprika gazpacho or grilled ox heart..."
