PECKHAM citizens

Peckham Citizens is hosting a workshop so that we can all understand more about how we can make sure the rebuilding of the Aylesham Centre delivers what local people need.

Peckham Citizens is a community power organisation. We are an alliance of schools, churches, charities and other organisations in Peckham that take action together to tackle the injustice we see in our community. We launched in March 2016 with 331 local people at Rye Lane Chapel.

40 of us attended Tiger Developments' first 'consultation' on the Aylesham Centre redevelopment on Wednesday 23rd November 2016 at Rye Lane Chapel. Having been there, we felt we needed to have our own, parallel process run by people from Peckham.

2pm - 5pm, Saturday 21st January 2017,
St James the Great Church, 45 Elm Grove, SE15 5DD

In 2015, we spoke to 1,000 people in SE15 about what people are struggling with most in their daily lives. The two issues raised most often were housing being too expensive and people struggling to find a good job. Therefore, the focus of the workshop will be:

- **Genuinely and permanently affordable homes for local people**
- **Well paid, secure jobs for local people**
- **How can the redevelopment fit with the existing culture, economy and built environment of Peckham**

Everyone is welcome – please email our community organiser, Calum Green, on the address below if you'd to come so we've got an idea of numbers: calum.green@citizensuk.org
