

# IT, Graphics Volunteer

## About the opportunity

Do you have good IT or graphics skills and experience? Do you want to give a few hours now and again of these skills to Peckham Vision?

One member of the community team currently does all the website and social media work, and another helps by creating graphics for that and also for exhibition displays. There are opportunities for two or three people to help support this key work, relieve some of the workload pressure and if they wish also help to develop the use of digital media in Peckham Vision's community communications.

## IT support

This work involves discussions by email and some meetings, and ad hoc tasks in the process of providing support in developing, operating & managing PV websites, social media and large email distribution.

<http://twitter.com/PeckhamVision>

## Graphics

The work involves providing support ad hoc in creating digital material, including images for the websites, social media and exhibition material, and for use in powerpoints. You can see the kinds of graphics on the weblinks.

We are looking for people who will work with the current two team members both on call and occasional planned together as development.

There's a lot to do and it's up to you how much you can take on and what is suited to your skills and experience.

It can mostly be done by email but supplemented by occasional face to face discussions.

## About Peckham Vision

Peckham Vision is a local community group that works to help local people engage with shaping the future of Peckham Town Centre.

Its vision is to support Peckham town centre as a thriving and sustainable social and commercial centre, and to contribute to Peckham being a good place for all in which to live, work and visit.

## What are they looking for?

The role will suit someone:

- With good IT and/or graphics skills and experience.
- Able to work closely with other local people who are not IT or graphics specialists
- With good communication skills
- Keen on using IT and graphics to help local people engage with shaping their neighbourhood.
- Someone living in Peckham or surrounding areas with access to own PC and internet and relevant software for the work.

## Practical Considerations

We are unable to reimburse travel expenses
