

PETITION TO MARK WILLIAMS, Cabinet Member for Regeneration, Planning and Transport, Southwark Council

Please don't encourage plans to construct a 20-storey building on the Aylesham Centre/Morrison's site in central Peckham, just 200 to 400 metres in front of Frank's Café, Bold Tendencies and the Bussey Building.

Peckham is leading the way in the development of rooftop cultural activities in London, with Frank's Café, Bold Tendencies and the Bussey Building rooftop bar and cinema making the most of the spectacular views over the capital. Southwark Council is encouraging plans for the redevelopment of the Aylesham Centre/Morrison's site in central Peckham which would include a 20-storey building in the middle of the view from Frank's Café and Bold Tendencies, and also from the roof of the Bussey Building. It would make sense to put on hold the promotion of the policy for a tall building on the Aylesham Centre/Morrison's site until the future of the multi-storey car park has been discussed and agreed.
